RHUBARB ROOTS

HORSERADISH CUTTINGS

Owing to the high price of Grating Horseradish this year, cuttings will be in great demand and we suggest placing your order early.

MALINER KREN or BOHEMIAN:--This wonderful variety was discovered by the U. S. Botanical Explorer, Mr. David Fairchild, and sent to us to be tested out in the soil of this country. It proved to be a great success and will grow in any soil, in any state. We introduced this in 1904, and since that time we have never been able to meet the demand for the cuttings.

For the convenience of our customers, these are tied with Raffia, fifty in a bundle, price \$4.00 per 1000. Lot of 10,000 or over, \$3.50 per 1000.

The Common Variety:--Tied with twine, fifty in a bundle, \$2.50 per 1000.

HORSERADISH CUTTINGS

We are now accepting contracts for Pepper Seed to be grown and delivered in 1916. Let us quote prices.

STOCK CARRIED IN CELLARS FOR WINTER TRADE. WE GUARANTEE PROMPT SHIPMENTS ON ANY ORDERS.
